

Frequently asked questions about your 3D ultrasound?

1. What is the best time to schedule my appointment for my 3D ultrasound?

We usually recommend visiting between 28 and 32 weeks gestation. This is when we generally get the best images.

2. Will You Be Able to Determine The Gender of My Baby?

When determining gender, we make every effort to obtain a clear image of the area whenever possible. This depends on the position of your baby. Our technician will never speculate.

3. How far in advance should I schedule my appointment?

Call our office at least two weeks in advance. We will make every effort to work with your schedule.

4. Can I invite my family?

Our comfortable spa-like environment is warm and inviting. A separate monitor in the exam room is mounted so your family can enjoy the first glimpse of your baby.

If you have any additional questions, please contact our office at 1-843-383-8889.
